ABOUT Resurrect

Join us for an intense weekend of coding and collaboration. Test your creativity and technical skills in this two-round hybrid event.

Round 1: The Idea Pitch (Online)

- **Format**: Online Idea Submission.
- **Theme**: Open Innovation. Teams are free to choose any field or category.
- **Submission**: Teams must submit a PowerPoint Presentation detailing their proposed solution (please find the template link in guidelines section).
- **Selection**: The top 30 teams will be shortlisted to compete in the onsite finale.
- **Pro-Tip**: Want an edge? Teams that include a GitHub link to a working prototype or MVP in their submission will earn brownie points during evaluation.
- **Deadline**: 20th November, 2026.

Round 2: The Grand Finale (Onsite)

- Teams will work on a task for 24-hours, which will culminate in them building a working prototype.

PRIZE POOL:
RS. 50,000

DURATION:
24 HOURS

TIMELINE

***Timeline subject to changes. Any changes made will be notified to the finalists and will also be updated on the event website.**

GUIDELINES

- Link to the template: https://tinyurl.com/resurrect-templates
- The hackathon is open to all students currently enrolled in B.E/B.Tech/ BCA/MCA.
- Each team must consist of a **minimum of 2** and a **maximum of 4** members.
- Team members do not need to belong to the same college or branch.
- A registration fee of **₹600** per team is applicable **only** if your team is selected for the final round.
- To ensure your workstation remains fully powered, all teams are strongly recommended to bring their own power extenders/spike guards.
- All teams are requested to be present for the inauguration ceremony on 27th at 9:00 AM.
- Judges decision will be final and binding.

ABOUT OUR COLLEGE

Vivekananda College of Engineering & Technology (VCET)

Where Tradition Meets Technology!

Vivekananda College of Engineering & Technology (VCET), Puttur, is a reputed engineering institution in coastal Karnataka, established in 2001 by Vivekananda Vidyavardhaka Sangha with the goal of delivering quality technical education to students from rural areas. Its core motive is to serve as a centre of excellence in engineering education, helping aspiring students from across the country achieve strong academic performance while shaping their overall personality.

VCET focuses on creating an environment that supports effective teaching and learning, emphasizing discipline, values, and holistic development. By combining solid academics with supportive systems and modern facilities, the institute aims to prepare students to become competent engineers and responsible professionals who can meet contemporary technical and societal challenges.
